AIMS

Over the past 10 years we have seen a significant increase in knowledge in salivary gland cancers. The advent of molecular analyses, of new markers, of innovative radiotherapies require constant updating.

The aim of the course is to provide useful tools for the diagnostic and therapeutic management of patients today, with an eye towards future challenges.

ADDRESSED TO

Oncologists, endocrinologists, pathologists, radiation oncologists, radiologists, general surgeons, maxillofacial surgeons, otolaryngologists, nuclear medicine physician; Nurses.

ECM

Based on the in force regulations approved by the CNFC, Accademia Nazionale di Medicina (provider n. 31) assigns to the activity (**31-352351**): **6 CME credits**.

Training objective: professional and technical content (knowledge and skills) specific to each profession, specialisation and highly specialised activity. Rare disease.

The credit certification for the webinar is subject to:

- Professions/specializations should correspond to those which have been accredited for CME
- attendance at the 90% of the meeting;
- completion of the Meeting evaluation online form;
- successful completion of the online learning test (questionnaire, at least 75% correct answers). The test must be completed within 3 days of the conclusion of the event, only 1 attempt admitted.

ACCESS MODE

The course will be held both as in-class course and as a live webinar.

When registering, it is necessary to select the desired participation method, until exhaustion of available places. Registration for the activity can only take place online, no registrations will be accepted at the congress venue.

For the current safety regulations, please refer to the page fad.accmed.org/sicurezza

REGISTRATION

Participation in the course is free, places available are limited.

It is possible to register online at the address <https://fad.accmed.org/course/info.php?id=809> **by 20 June 2022**.

Registration will be accepted in the chronological order of arrival and will be confirmed by e-mail.
